REQUIREMENTS	ACTIONS
--------------	---------

**Physical distancing**

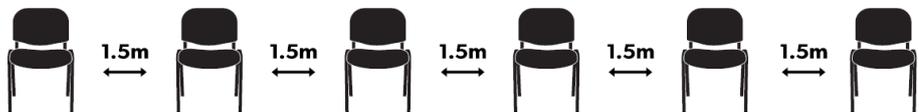

**Ensure the number of people in a facility does not exceed one person per 4 square metres (including staff and spectators):**

We have considered the number of participants and fixtures to minimise the number of attendees in/on the venue at one time.

Where bench seating is permanent (fixed), we will limit the total number of seats to ensure a minimum of 1.5 metres between each member of the coaching staff and substitutes. Where possible, we will mark seats with masking tape and if necessary, provide additional seats to extend the length of the bench.

Where team benches are made up of plastic/other moveable chairs, we will position them so they are at least 1.5 metres apart. Further, we will place signage in technical areas promoting social distancing and reposition the chairs at the required distance between matches.

Where change rooms are in use, restrictions will be placed on the number of people able to use the change rooms at any given time to comply with the 4 square metre rule

**Minimise co-mingling of participants from different games and timeslots where possible:**

We have arranged training days and times to minimise contact, cross-over and avoid unnecessary gatherings of players, family members and volunteers.

We will schedule time between games/training sessions when possible, to enable all attendees to arrive and exit the venue safely, with minimal contact with others.

We will communicate with players and team staff to encourage personal equipment and bags are arranged to maintain physical distancing of participants (> 1.5 metres) and separation between teams.

Where possible, we have identified separate entry and exit points to the venue via signage and communicated this to participants and parents/carers.

<p><b>Ensure any spectators comply with 1.5 metres physical distancing where practical, such as through staggered seating. People who live in the same household are not required to distance. Have strategies in place to prevent spectators from different games and timeslots co-mingling.</b></p>	<p>Parents/spectators may attend games and training.</p> <p>We will take the necessary precautions to minimise the risk of transmission including the dispersion of spectators around the perimeter of the playing and training facilities and across a range of viewing areas and designating the use of specific seats/areas that meet physical distancing requirements and erecting signage to advise where required.</p> <p>We will encourage players and spectators to leave the facility as soon as possible following the conclusion of their training/games.</p>
<p><b>Have strategies in place to manage gatherings that may occur immediately outside the premises, such as with drop off and pick up zones or staggered start/finish times:</b></p>	<p>Where increased venue traffic is anticipated, we will stagger arrival and/or departure times when possible for different groups and teams, and within the constraints of the venue design, manage entry and exit points to allow a seamless flow of players/coaching staff and parents/attendees through the venue to limit the risk of overlap and congestion.</p>
<p><b>Reduce crowding wherever possible and promote physical distancing with markers on the floor:</b></p>	<p>We will promote and communicate the importance of social distancing of 1.5 metres between spectators (e.g parents/carers). This will be done through social media, direct communication and signage.</p> <p>We will indicate the number of people that can occupy indoor spaces in accordance with the 4m<sup>2</sup> guideline including toilets, change rooms, canteens, club rooms etc.</p>
<p><b>Assess the safe capacity of communal facilities such as showers, change rooms and lockers. Communicate this at their entrance and have strategies in place to reduce crowding and promote physical distancing:</b></p>	<p>We will limit the use of changerooms or inside areas to essential players and team officials and clean these spaces regularly.</p> <p>We will indicate the number of people that can occupy indoor spaces in accordance with the 4m<sup>2</sup> guideline including toilets, change rooms, canteens etc.</p> <p>Toilets will be open for public use and will display clear signage to indicate the recommended number of people entering (dependent on the space of the amenities).</p>

<p><b>Where practical, stagger the use of communal facilities. If we need to meet face to face, we will keep the time to a minimum, implement social distancing requirements by ensuring maximum room allowances are not exceeded and ask participants sit more than 1.5m apart.</p>
<p><b>Review regular business deliveries and request contactless delivery and invoicing where practical:</b></p>	<p>We will contact all suppliers and seek their support for contactless deliveries to the club and electronic invoicing where practical.</p>
